Dull and Weaker. ACTIVE MOVEMENT OF GROCERIES

OFFICE OF PITTSBURG DISPATCH. } TUESDAY, September 23, 1890.

silver certificates is almost alone in showing any material loss this evening.

After the heavy hammering was over, there was a full recovery in everything, Lackawanna and Rock Island led the upward movement. Another drivy of the small proportions was made in the afternoon, but outside of St. Paul, against which it was specially directed, there was little to show for the effort. Duliness and firmness became the features of the dealings, and the market finally closed dull and firm at about the best prices of the day, and generally atsmall fractional advances for the day. There was no material losses, but Lackawanna is up 294; Rock Island, 11%; sugar refineries, 11%, and Missouri Pacific and Wheeling and Lake Erie I per cent each.

Railroad bonds were very quiet althoug the dealings extended to a larger number of issues than on any day for a long time, and, while the tone of the trading was generally heavy, the movements were insignificant in the extreme outside of a few unactive bonds. The transactions foot up 826,000. Most of the changes are losses, however, and Norfolk and Western 5s lost 2% at 96. Government bonds have been dull and heavy. State bonds have been dull and featureless.

The Post says: Upon as thorough an investigation as the circumstances of the case will admit we beheve that the story which came from Philadelphia, to the effect that the North American Company had been compelled by the recent stringency of the money, market to throw over a considerable part of its holdings of Northern Pacific and Wisconsin Central stocks is without any foundation. The liquidation which has taken place in these stocks and in the North American Company's stock itself was entirely that of private individuals, and has apparently been completed without any other unfavorable developments than a moderate decline in the prices of those stocks, which decline, however, seems now being recovered. But so are as the North American Company's stock.

The following table shows the prices of active stocks on the New York Stock E Country Produce-Jobbing Prices. Elgin creamery butter is firm and prospects are for an advance in prices before the week is out. In fruit lines grapes have the field. Re-ceipts are heavy and prices tend to a lower level. Tropical fruits are for the time forced into the background by reason of the abundant supplies of the vine. Bananas are particularly dull. Choice apples are active at outside quotations. The season for watermelons is near its end. Potatoes of good quality are active at

5 00.

BUTTER—Creamery, Elgin, 25@25c; Ohio do, 23@24c; fresh dairy packed, 18@19c; iancy country rolls, 18@19c; chuice, 17@18c.

BERRIES—Huckleberries, \$1.50 a pail; grapes, Concords, 30@35c a basket; Delawares, 60c a basket; cranberries, \$3.00@3 50 a box; plums, \$5.00@6 00 per bushel; quinces, \$6.00@7 00 a barrel.

\$5 00@6 00 per bushel; quinces, \$6 00@7 00 a barrel.

H. Price a well-known resident of Lawrenceville, who lives on Forty-six-and-a-Half street, and is in the employ of the Sheffler Bridge Company, "I caught a severe cold and from that time my catarrhal symptoms manifested themselves. My head and nose would be so filled with mucus that I was compelled to breathe through my mouth and my nose would often get sore. I had pain over my eyes, dizziness and noises in my ears. The mucus that dropped into my throat

caused me to be almost continually spitting. The disease finally reached my lungs, I felt a weight in my chest as if my lungs were stopped up. My breath became short and finally a violent cough set in, which increased until I coughed day and night. I had erucuations of gas from my stomach, and I had a tired feeling, but more so on getting up in the morning As I read in the papers statements from patients who had been cured by the catarrh specialists at 323 Penn avenue of conditions similar to mine I took a course of their treatment and became completely cured. It is now

against Elizabeth Kline for damages to land, sustained by the excavation of an adjoining lot, a verdict of \$354 was found for the plain-tiffs. A PETITION was filed in the Orphans' Court by Anna M. Dellenback, Anna M. Stand, Eliza-beth Wettach and Sarah J. Heil, asking for the removal of G. C. Dellenback, as one of the administrators of the estate of the late C. Dellenback, alleging that he was mismanaging the estate and wasting it. A cita-tion was issued on the administrator to show cause why he should not be removed.

COULDN'T STAND THE DISGRACE.

A Wenlihy Man Suicides Because He le Accused of Incondingion. PERCIAL TELEGRAM TO THE DISPATCH. SPRINGVALE, ME., September 23 .- Sylvester Cummings, a wealthy and prominent citizen, committed suicide to-day by means

of laudanum. The deed was committed in order to escape the disgrace of a trial on the charge of incendiarism for which he had been arrested Saturday. The arrest caused quite a sensation and to-day's tragedy has increased the feeling. Mr. Cummings was 48 years old, and was

highly esteemed in the community. He was charged with setting fire to the buildings of Charles Pray, of Chapleigh, September 7, but there is general feeling that the police made a mistake.

ECZEM A. My little four year old girl had an

aggravated case of eczema. The best physicians treated her, without any good results. A single bottle of S. S. S. cured her sound and well. This was four years ago, and she has had no return of the disease since; and her skin

CROPS IN THE WEST.

Facts of Interest Gathered From a Pittsburg Merchant

JUST KETURNED FROM ILLINOIS.

Builders' Hardware at Bottom Prices and Manufacturers

HOPING FOR FREE TRADE IN COPPER

OFFICE OF PITTSBURG DISPATOR, TUESDAY, September 23, 1890. A Pittsburg flour jobber who spent the past ten days in Northern Illinois in an interview yesterday said: "All crops through the section I visited are below average, with the exception of hay, which is one of the largest crops on record. The wet weather of spring and early summer, which proved so advantageous to the grass crop,

weather of spring and early summer, which proved so advantageous to the grass crop, proved diastrous to other crops. The rains were not well enough distributed through the season for the grain and potato crop. The ground was too wet when the hot weather came, and was literally baked, so that corn, which is the great standby 12 Northern Illinois, will not be more than 60 per cent of last year in the yield.

However, as an offset to this the farmers carried over a large amount of last year's crop of corn because of low prices. A year ago corn was selling at 23 cents a bushel, and slow at that; now it is active at 45 cents, and the fore handed farmers of Illinois who were able to carry over their product until now are reaping their harvest.

High Price for Corn.

"A friend of mine whom I visited last week sold, when I was there, 3,000 bushels of last year's corn at 45 cents a bushel, and slow at year's corn at 45 cents a bushel, a price double almost what he could have obtained last fall. As to potatoes and tomatoes, in Northern Illinois the crop this season is almost a total fall-ure. The farmer who can get enough potatoes for next year's seed is the exception."

In the above interview it was developed that wheat and flour markets have weakened in the Northwest the past week. Our wholesale prices have furnished so small a margin to the dealer for a few weeks past that the present deciline at sources of supply has made no change in jobbing rates. wheat and flour markets have weakened in the Northwest the past week. Our wholesale prices have furnished so small a margin to the dealer for a few weeks past that the present de-cline at sources of supply has made no change

in jobbing rates.

With a decline of 10 cents per barrel in laydown price the margin of profit to the Pittsburg jobber is still very narrow.

Bu lders' Bardware. Dealers in general hardware report great accivity and a hardening of prices, with a difficulty in securing from manufacturers all goods emanded by the trade. In the line of builders' hardware there is not the same activity. A representative of our one manufacturing tablishment in this line had this to say interest yesterday: "Trade is only fair. The strike of carpenters in the West during the early summer very much lessened the demand for our products, but since the settlement of the strike there has been some improvement. The time is here when the demand for our

The time is here when the demand for our goods is at its best."

"The railroad blockades of late have prevented our getting all the coke needed to run full time, but still we are able to turn out sufficient to meet all orders and have some ahead. This accumulation, however, will no doubt soon disappear, as the next month or two, according to former experience, will make very heavy demands on our products. Prices of everything in builders' hardware lines is as low as ever. Bronze materials have advanced, but prices of finished products remain as before, so that our margins, which were very close last season, are still closer now. I am in favor of free trade in copper. The McKinley tariff bill furnishes some relief by a reduction of from 4 cents to 3 still closer now. I am in favor of free trade in copper. The McKinley tariff bill furnishes some relief by a reduction of from 4 cents to 3 cents per pound on copper, but it would be still better for us if the copper which comes from chill in large quantities would come in free in accordance with the reciprocity views of one of our foremost statesmen.

"Our volume of business this year has been about the same as last, but owing to facts I have given you profits have been much less.

"The outlook for fall trade is good. Retailers are generally carrying light stocks, and it can-

are generally carrying light stocks, and it can-not be long until there will be free buying."

\$4.40; lambs, \$5.0066 l5.

AN ALDERMAN'S EYE CLOSED. Sepantional Personal Encounter Between Prominent Politicians.

SPECIAL TELEGRAM TO THE DISPATOR. ROCHESTER, N. Y., September 23 .- State Committeeman George W. Aldridge, one of the best known Republicans of this city, was assaulted by Alderman Lembert, of the Eighth ward, in a cigar store this morning. The two men were seen to be talking earnestly when suddenly the lie was passed and in a second more Lembert had slapped Aldridge's face. Aldridge weighs 250 and Lembert 150, but Lembert is as sury as a whiflet and is possessed of considerable science. The battle was a good one and lasted several minutes, when the store became filled with spectators and friends separated the distinguished combatants. The fight was stopped none too soon for Alderman Lembert's beauty. His left eye was completely closed, and his face was all the colors of the rainbow. Aldridge was even worse off. His face was covered with blood and his clothing was badly tore. Lembert was taken to his home and

Aldridge took a carriage to Power's Hotel,

Neither will give any of the particulars that

led to the scrimmage, but it is believed that

it was all about the fight between the Exec

utive Board and the Common Council rela-

tive to the kind of poles to be used on the

Lake avenue electric car line.

MARKETS BY WIRE.

Business Rather Slow in the Grain Pit and Prices Lower All Roung-Longs Do Considerable Unleading-Pork Tame at Inside Figures.

CHICAGO-Wheat-There was fairly large trading to-day, and the feeling was weak and prices lower. There was a good deal of liquidating, the situation apparently being less fa-vorable to the interest of holders. The influences were mostly bearish. The market opened about the same as it closed yesterday to 1/4c lower, eased off 1/2c more, then rallied 1/3c, but again became weak, and this time declined about 15/26/13/2c, ruled quiet, and the closing was

about 13% lower than yesterday.

Corn was quiet and inactive the greater part of the session, only a moderate business being transacted. First sales were at yesterday's closing prices, and under a fair demand sold up 368%c, reacted %c, again advanced, ruled weak

and closed with a loss of 1/6/4c.
Outs were active but rather unsettled, with

39%@40%c. On the Produce Exchange to day the butter

market was quiet. Extra creamery. 22628; extra firsts, 18618c, extra dairy, 18618c, extra firsts, 18618c, Eggs 184618c.

NEW YORK—Flour moderately active and unchanged. Cornmeal more active and easier; yellow Westerr. \$25063 20. A PROVOKING DELAY.

Sixth Street Bridge Folk Waiting for Col. Merrill to Give the Word.

GROWTH OF BLECTRIC LIGHTING.

Oil Speculation Below Zero. THE NEWS AND GOSSIP OF THE CITY

Local Securities Moving Fairly Well, but

Colonel Merrill, it seems, is in some way held responsible for the delay in beginning work on the Sixth street bridge, but this is no doubt an injustice to that gentleman. It is in his province to determine the height and length of the spans and location of the piers, and until he shall do this nothing can be done. It is probable that Colonel Merrill is awaiting instructions from Washington and will act at once upon their reception, for his record as an engineer in connection with many local river improvements' precludes the supposition that he would need-

ssly delay a work of such importance as the one in question.

A well-posted gentleman said yesterday:
"We will begin work as soon as Colonel Merrill rives the word. We are ready and waiting. We have the money. The delay is very annoy-ing. We had hoped to begin work early this month. While we cannot fix a time for breaking ground, we hope it will not be remote. The sooner the better for us." The gentleman

added that the plan for the bridge had not been decided upon, but would be in a short time. Growth of Electric Lighting. The use of the electric light in the territory covered by the East End Electric Light Company is almost universal. Nearly every house, whether large or small, is illuminated with it churches and stores. This is due to its cheap-

ness and cleanliness. It is less dangerous than other illuminants An official of the East End Company gave some interesting information on this subject resterday: "We are now supplying more than 18,000 lights and expect to increase the number to 25,000 by the end of this year. The Pennsylvania Railroad is using them in its signal system. Our works are running to their full capacity, but the demand upon our resources is increasing so rapidly that we will be com-pelled to erect new buildings before long. The Allegheny County Light Company is also doing

"Pittsburg has more incandescent lights than any other city in the world, there being not far from 75,000 in use at this time." Business News and Gossip.

Business is picking up all along the line. The

bad condition of the country roads is the only

drawback. The merits of natural gas stocks are not fully appreciated. With an abundant supply and no signs of exhaustion, they should be the leaders of the speculative market. The Wilkinsburg Call says, referring to Penn avenue: "Fast driving on this thoroughfare is say that a chicken would mire on almost any part of the street to render the sarcasm of the

warning intelligible to outsiders.

Pittsburg leads in almost everything. The statement that she has more electric lights than any other city in the world is, therefore, not surprising.

The property of the Love Manufacturing Company, at Rochester, Pa., consisting of real estate, buildings, patterns, patents, etc., was offered at assignee's sale yesterday. The plant has a mortgage upon it of \$8,000. The first bid was for \$5,000, and 12 other offers were made, each increasing \$1,000 until a total of \$17,000 had been attained, when, there being no apparent prospect of reaching a satisfactory figure, the sale was adjourned until next Saturday at 10 A. M. John D. Bailey was the auctioneer.

The Local Money Market Getting Into an

Ensy Condition. The local money market continues working toward greater ease, and good borrowers readily obtain all the funds they want at 6 per cent as the rule. Outside paper pays 7.

A cashier remarked yesterday: "We have plenty of money for business, but are holding back considerable to meet the demands of the quarterly settlement period, which is almost at hand. After that time the lines will loosen and accommodations be more freely extended. The fall business will be well cared for, so far as this falls within the scope of the financial institutions."

NEW YORK STOCKS. Extreme Activity in Stocks Attacked by Bears-Granger Stocks Sluggish-Reports That Jay Gould Will Establish

a New Orleans Steamship Line. New York, September 23.-The narrowness and almost purely professional character of the stock market at present was again demonstrated to-day by the extreme activity in those stocks which have of late become the special objects for bear attacks with their accompany ing weakness in contrast to the duliness and comparative firmness of the remainder of the The most prominent stocks for weakness

The most prominent stocks for weakness were the Villards, but nothing is actually put forward as a reason for their slumping, though the assertion has been made that the Villards must be liquidated, and, in order to bring that result about, the pressure upon them has of late been most pronounced, especially upon the newest one, North American. There is, however, no end to the stories and argument setting forth reasons why the Granger stocks should sell lower and the latest is that the Southwestern roads and Mr. Gould intend to establish a new steamship line between New York and New Orleans and that all the freight which now goes over the Grange roads will be sent over the new route, thus precipitating another war of rates and di-minishing the already shrunken revenues of the roads in the Northwest. To second these

depth, for \$250.

Baxter, Thompson & Co, sold lots Nos. 18 and 20, Irving Place plan, Roup station, fronting 100 feet on Brownell avenue by 100 to Japonica way, to a well-known Southside business man for \$4,000.

ROT MUCH CHANGE.

A Fair Business in Local Securities and Values Generally steady.

Sales of stocks on call yesterday were 365 shares, contributed by Afrbrake, Luster, Electric, Switch and Signal and Bridgewater Gas.

Luster was the only interesting feature. Its backers, as usual, were on hand to give it support when most needed. The opening sale was taled. The next was at 23%, which was also the closing quotation.

The rest of the list differed little from the market sale was point in the list, and with the list, and with anything, the weak point in the list, and with anything, the weak point in the list, and with anything, the weak point in the list, and with

New York—Pig iron quiet and steady; American, \$16 00@18 00. Copper steady: lake, September, \$17 00. Lead dull and steady. Tin quiet and firm; straits, \$25 10. RIVER INTELLIGENCE.

Pittsburg Enterprise at the World's Fair-Business Yet Quite Active. Notwithstanding that the river threatens to business was active on the levee yesterday. A riverman stated that if the water fell as fast in the coming three days as it has done every day during the past week, boats will be compelled to lay up until there is more water.

The enterprise of Pittsburg rivermen has again been shown to be equal to the hustling abilities of any people. One of the wide-awake men of this city is Captain Lew Clarke, owner of the excursion beat City of Pittsburg. It has occurred to him that the visitors to the World's Fair in Chicago will have a little loose change about them to be spent for pleasure, and he accordingly visited the Windy City last week to look about and perfect arrangements for running a massive stern-wheel boat along the lake from the upper to the lower end of the beach upon which the building will be erected. Captain Clarke returned from Chicago yesterday and unfolded his plans. He said: "I have made arrangements for a landing place on the Lake Front, and will commence building a stern-wheel boat larger than any excursion boat or towboat running on the rivers about Pittsburg, It will be novel to see a stern-wheeler on Lake Michigan, but that is the pattern I intend building. The big boat will be constructed in such shape as to breast the turbulent waters in a storm, which the presont style of stern-wheel boats is unable to do. It will be built as soon as possifile, and will be running next year some time." This is only one of the vantures in connection during the past week, boats will be compelled

Driftwood. Pilors on the Lizzie Bay report slow time or count of fogs. THE H. K. Bedford is due from Wheeling and raraersburg, to-day.
